#	Notes
30	Removed to minimod
40	Removed to minimod
60	Deliberate script delay to allow other processes to complete
70	This will make little sense without Skooma Whore installed (version 1.0 or later).
112	Deliberate script delay to allow other processes to complete
113	Deliberate script delay to allow other processes to complete
114	Uses a Solstheim start
130	Like many Sexlab Stories scenarios, this one may use more optional extras from other mods.
140	Uses a Solstheim start
210	Like many Sexlab Stories scenarios, this one may use more optional extras from other mods.
260	Deliberate script delay to allow other processes to complete
290	Requires Sisterhood of Dibella through Sexlab Stories.
330	Maria Eden conflicts with LAL
350	Deliberate script delay to allow other processes to complete.
350	Updated TIR has not yet been released, and this scenario has been disabled.
379	Uses a Solstheim start
391	Continuation of Aspiring Mage, not a separate scenario
400	Scenario trigger used by both the old and the new Arachnophobia versions.
410	Deliberate script delay to allow other processes to complete
480	Deliberate script delay to allow other processes to complete
490	Sets SD+ spriggan infection chance to zero when starting. This can be changed in the MCM.
490	Witch of the Wilds scenario minimod not yet implemented - basic scenario
500	Forced marriage / bimbo scenario not yet implemented.
520	Uses a Solstheim start
530	Ponygirl farm minimod not yet implemented
540	The 540 block (540-549) requires the latest Devious Devices (ddi and ddx 4.0)
547	Uses a Solstheim start
